## Farmhouse living with a modern twist

While retirement communities tend to design new buildings according to impersonal guidelines, Hearthside at Cross Keys Village is specific to our locale and true to the farmhouse architecture style in the Gettysburg area. In this ideal setting, Hearthside residents enjoy an active and stimulating lifestyle. We call it “traditional with a twist.”

Hearthside features intimately scaled buildings containing 10 generously sized models, each with a garage bay. Ranging in size between 1,260 and 1,740 square feet, Hearthside residences incorporate farmhouse touches such as a farm sink in the kitchen, barn doors, and rustic fireplaces surrounded by built-in bookcases. Hearthside is designed with up-to-date choices that ensure the comfort of today’s and tomorrow’s retirees: oversized

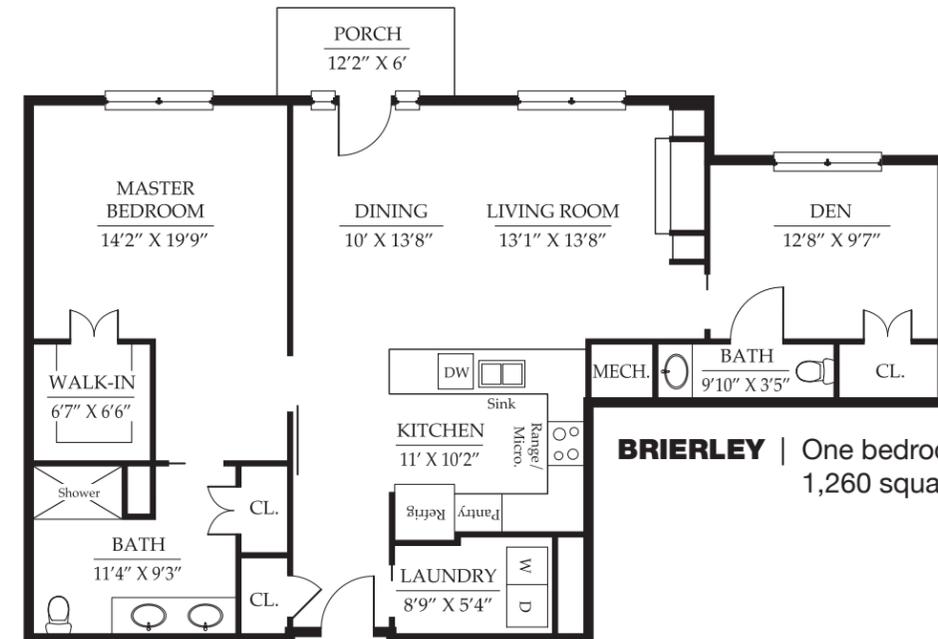

storage, large bathrooms with tiled showers, great kitchens for entertaining, high ceilings, and oversize windows letting in clean air and natural light. Each building features tastefully furnished common space, encouraging new neighbors to become fast friends.

Your major appliances—including washer and dryer—come with your residence and will be serviced or replaced by us when needed. Hearthside is centrally located on our well-maintained campus, with convenient access to our top-of-the-line amenities in the Harmony Ridge Community Center, including two restaurants (participation in our Meal Plan is optional), comprehensive education and creative arts spaces, and a state-of-the-art wellness and fitness center with a rich calendar of land and aquatic classes.

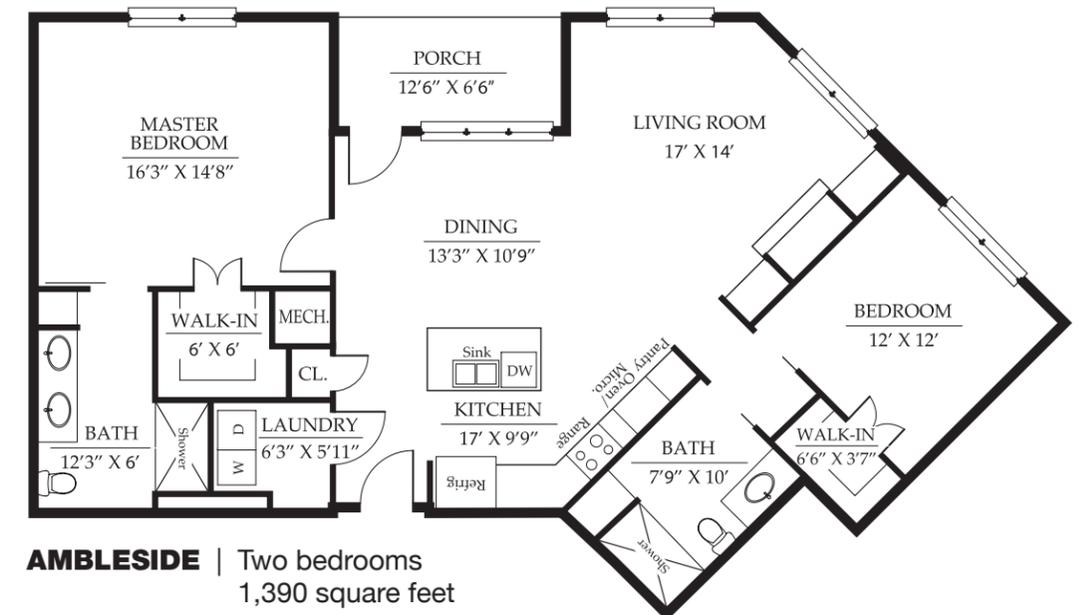

To learn more, or to arrange a personal visit, please give us a call at **717-624-5350**, or email us at [info@crosskeysvillage.org](mailto:info@crosskeysvillage.org).
